

Science Education Mentor: Volunteer Opportunity Description

<u>Title</u>	<u>Duration</u>	<u>Time Commitment</u>
Science Education Mentor	3 months	5-7 hours per week

Key Responsibilities

- Engage 4th and 7th grade students in rigorous science education.
- Prepare materials for hands-on science lessons.
- Assist with instruction of lessons as needed.
- Help facilitate field trips to the Living Lab.
- Assist with classroom management and engagement of the students.

Volunteer Impact

- Help students to believe and achieve in science.
- Expose underserved youth to innovative science and conservation curriculum.
- Spark student interest in science careers.

Commitment

- One 5-7 hour shift per week from January 22nd to March 22nd, 2019.
 - Time for the shift varies between 7am-4pm.
- Two required orientations for all Science Education Mentors.
 - January 14th from 3-5:30pm and February 6th from 4-6:30pm.
- Optional but encouraged end of unit Volunteer Appreciation Event!

Requirements

- Interest in the science, conservation, or education fields.
- Commitment to acting as a role model for underserved youth.

Preferred Qualifications

- Interest in gaining education experience.
- Ability to communicate in Spanish.
