

Joyner Elementary School Program Schedule
Ocean Discovery Institute – Ocean Science Explorers
2019-2020

4th Grade Unit:

During this unit students will gain experience in observing the structure and function of organisms along the coast and in the deep sea, to construct explanations about how organisms survive in their environments.

When traveling to the coast, students will be able to find, via a map, the beginning of the La Jolla submarine canyon on shore, and continue to explore how organism survive there when they visit the Living Lab.

To ensure a quality learning environment please:

- Review the following schedule and email Rochelle (RMothokakobo@OceanDI.org) about any scheduling conflicts
- Meet with Rochelle on February 11th to preview the new curriculum
- Have student's complete waivers and turn into Ocean Discovery Institute staff by **Feb. 21st**. (download from www.oceandiscoveryinstitute.org/teachers)
- Please ensure all students wear close-toed shoes and come with nametags to the field trips to the Emory Cove wetland to Ocean Discovery Institute's Living Lab
Debrief with Rochelle on May 11th after school to complete teacher survey and talk about your experiences

Looking forward to working with you this year. Thank you!
