

Ocean Discovery's Bubble Up! Gala

Ocean Discovery Institute uses ocean science to empower young people from low-income urban communities of color to transform their lives, their community, and our world as science leaders. Working in the San Diego community of City Heights, we provide continuous science opportunities paired with mentoring and the tools to overcome challenges so that young people unlock their potential.

One of the primary ways we generate support to provide rigorous science programming to kids in the City Heights community is through our annual fundraiser – the *Bubble Up! Gala*. This black-tie affair is attended by 300 leaders in the San Diego business, philanthropic, and scientific communities.

Sponsors of our event range from local family-owned businesses, to academic institutions, to large corporations with a national footprint. No matter the industry or scale, our sponsors demonstrate that they believe our students will be their future workforce. Details of the event, the sponsorship opportunities, and the currently committed sponsors can be found below.
